Investment strategy	The Fund will actively manage a diversified portfolio of strong growth companies with sustainable business models, whilst managing risk. The Fund will have the flexibility to invest across the market capitalization (i.e. large, mid and small cap companies) spectrum and industries / sectors. The companies would be individually researched and selected only when the fund management team has satisfied itself on robustness of the company's business model, sustainability of its competitive advantage and the credibility of its top management team.	The Fund will invest in a diversified portfolio of strong growth companies with sustainable business models. Though the benchmark is BSE-200, the investments will not be limited to the companies constituting the benchmark. The Fund will have the flexibility to invest across the market capitalization spectrum (i.e. large, mid and small cap companies) and across industries/sectors. The companies would be individually researched and selected only when the fund management team has satisfied itself on robustness of the company's business model, sustainability of its competitive advantage and the credibility of its top management team. The Fund will endeavor that the corpus of the scheme remains fully invested in equity and equity-related instruments at all times.		
Risk profile of the scheme	Mutual Fund units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in equity and equity related securities, derivatives, foreign securities, debt securities, securitized debt, money market instruments, short selling and securities lending. Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity in equity and debt investments. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc. to the extent of the Scheme's investments in such securities. Please refer to the SID for further details.	Mutual Fund units involve investment risks including the possible loss of principal. 	For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 11 to 13.															
Investment strategy	The Scheme has dual objectives of generating income and capital gains while attempting to manage the risk from the market. In order to achieve the twin objectives, the Scheme intends to follow a top-down and bottom-up investment strategy. The top-down process would lead to the asset-allocation between equities and fixed income and the bottom-up process would lead to construction of the portfolio using specific securities. The Scheme would invest both in equities and fixed income instruments. Allocation between the two asset classes will be done using a quantitative asset allocation methodology. This methodology will be the primary tool to manage the overall risk of the portfolio in such a way as to achieve the objective of managing risk. The quantitative tool has been simulated with a target of limiting the downside to 5% in a calendar year. Within equities and fixed income, the portfolio would be actively managed to optimize returns within the respective asset class.	The scheme seeks to provide superior risk adjusted returns through diversification across various asset classes such as equity, fixed income & gold that have historically shown low correlation with each other.														
Risk profile of the scheme	Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below: The Scheme carries risks associated with investing in equity and equity related securities, derivatives, debt and money market securities, foreign securities, securitized debt, short selling and securities lending. Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc. Equity and equity related instruments are volatile by nature. The name of the Scheme should in no way be construed as a guarantee or assurance of returns or capital invested in the scheme. Risk management strategies	The Scheme aims to manage the risk using a quantitative asset allocation methodology to decide the allocation between equity and fixed income securities. The investment team of the AMC will carry out rigorous in-depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in. The credit evaluation will essentially be a bottom-up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term/long term financial health of the issuer. Differentiation with existing open ended equity schemes of Axis Mutual Fund (as on October 31, 2015)	<p>For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 11 to 13.</p>																					
Investment strategy	<p>The scheme seeks to generate capital appreciation through an actively managed diversified portfolio of primarily larger Midcap companies. Larger Midcap companies combine the flexible, innovative, high-growth features of mid and small size companies with the proven management and liquidity of larger companies. The Fund intends to benefit from this "best of both worlds" characteristic of larger Midcap companies. The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective.</p>	<p>The scheme aims to generate long term capital appreciation by investing in a concentrated portfolio of equity & equity related instruments of up to 25 companies. In order to have a concentrated portfolio, the scheme will follow a bottom up stock selection approach.</p> <p>The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors.</p> <p>While 65 - 100% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies), it is expected that under normal market conditions at least 80% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies). The Scheme will primarily invest in companies among the top 200 in terms of market cap.</p>																				
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment.</p> <p>Scheme specific risk factors are summarized below:</p> <p>The scheme carries risks associated with investing in equity and equity related securities, derivatives, foreign securities, debt securities, securitized debt, money market instruments, short selling and securities lending.</p> <p>Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity in equity and debt investments. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:</p> <p>The scheme carries risks associated with investing in equities, fixed income instruments, derivatives, foreign securities, securitized debt, short selling and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>As the scheme will invest in limited number of companies it will have a less diversified portfolio. This relatively higher concentration may lead to a higher level of volatility as compared to a diversified equity fund.</p>																				

Risk profile of the scheme (contd)	Mid & small size companies may be more volatile & less liquid than larger companies. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc. to the extent of the Scheme's investments in such securities. Please refer to the SID for further details.																																								
Risk management strategies	Following are certain risks of investing in equities identified and risk management strategies designed by Axis Mutual Fund		Risk control would include managing risk in order to keep it in line with the investment objective of the Scheme. The AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. The risk control process involves identifying & measuring the risk through various Risk Measurement Tools. Further, the AMC has implemented the Bloomberg Portfolio Management System as Front Office System (FOS) for managing risk. The system has inbuilt features which enables the Fund Manager calculate various risk ratios and analyze the same. The AMC has experienced investment professionals to help limit investment universe to carefully selected high quality businesses. The fund manager would also consider hedging the portfolios in case of predictable events with uncertain outcomes.																																						
	Risk & description specific to equities	Risk mitigants/ Management strategy																																							
Quality risk- Risk of investing in unsustainable/weak companies	Investment universe carefully selected to only include high quality businesses																																								
Price risk- Risk of overpaying for a company	"Fair value" based investment approach supported by comprehensive research																																								
Liquidity risk- High impact costs	Control portfolio liquidity at portfolio construction stage																																								
Volatility- Price volatility due to company or portfolio specific factors	Control risk class/sector/stock exposures to control overall portfolio volatility																																								
Event risk- Price risk due to company or sector specific event	Understand businesses to respond effectively and speedily to events Usage of derivatives: Hedge portfolios, if required, in case of predictable events with uncertain outcomes																																								
Mid & small size companies may be more volatile & less liquid than larger companies. The scheme will try to lower the risk by primarily investing in larger Midcap companies which combine the high growth features of mid and small size companies with the proven management and liquidity of larger companies.

<p>Investment Strategies</p>	<p>The scheme will seek to achieve its investment objective primarily by employing various strategies which seek to exploit absolute returns opportunities in equity and derivative markets. In case such opportunities are not available, the scheme will invest the corpus in debt and money market instruments.</p> <p>The equity and derivative markets have experienced enormous growth in India in the last few years. The market provides the investor the ability to derive returns from the various strategies enumerated below. The market is not always efficient to the extent of mispricing in the derivative market and the underlying cash market. These techniques differ in that each method attempts to exploit a different form of imperfection in the underlying equity, debt and derivatives market and thus expose the investor to different forms of risk.</p>	<p>The scheme has a dual objective of providing capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The scheme seeks to benefit from the concept of asset allocation. The aim of asset allocation is to provide superior risk adjusted returns through diversification across various asset classes like equity, fixed income & arbitrage which have historically had low correlation with each other.</p> <p>Equity and Equity Related Instruments: The equity allocation will be managed actively. The focus would be to build a diversified portfolio of strong growth companies, reflecting our most attractive investment ideas, at all points of time. The portfolio will be built utilizing a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors. The Fund will have the flexibility to invest across the market capitalization spectrum. The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity markets.</p> <p>The Fund has identified the following risks and designed risk management strategies, which are embedded in the investment process to manage these risks</p> <p>i) Quality Risk - Risk of investing in unsustainable / weak companies.</p> <p>ii) Price Risk - Risk of overpaying for a company</p> <p>iii) Liquidity Risk - High Impact cost of entry and exit</p> <p>iv) Volatility Risk - Volatility in price due to company or portfolio specific factors</p> <p>v) Event Risk - Price risk due to a company / sector specific or market event</p> <p>Fixed Income: The Scheme proposes to invest in a diversified portfolio of high quality debt and money market instruments to generate regular income. The fund manager will allocate the assets of the scheme taking into consideration the prevailing interest rate scenario & the liquidity of the different instruments. The portfolio duration and credit exposures will be decided based on a thorough research of the general macroeconomic condition, political and fiscal environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations. The fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as the kinks within a particular yield curve (e.g. the different points of the sovereign yield curve) while making investment decisions.</p> <p>Cash-Futures Arbitrage: The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return. Buying the stock in cash market and selling the futures results into a hedge where the fund has locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts. The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus there is a convergence between the cash market and the futures market on expiry. This convergence helps the fund to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks.</p>															
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in equity and equity related securities, derivatives, debt and money market securities, securitized debt, short selling and securities lending.</p> <p>No assurance can be given that the Fund Manager will be able to locate investment opportunities or to correctly exploit price discrepancies in the capital markets. Reduction in mis-pricing opportunities between the cash market and Future and Options market may lead to lower level of activity affecting the returns.</p> <p>In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures' settlement. This eventuality may lead to basis risk.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>Please refer to the SID for further details.</p>	<p>The scheme attempts to manage risk through active asset allocation. According to detailed historical analysis done by the AMC, such a scheme is able to generate a much lower risk profile compared to a 100% equity investment strategy. However there is no certainty that the active asset allocation approach will be able to deliver the risk management going forward. Please refer to the SID for further details.</p>															
<p>Key Risk Mitigants</p>	<p>In comparison to an equity fund, there are certain additional risks which are associated with an arbitrage fund and the mitigants to such risks are as follows:</p>	<p>Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by</p>

Unit holder's information	<p>Account Statement</p> <p>On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted by way of e-mail and/or SMS within 5 business days from the date of receipt of transaction request/ allotment will be sent to the unit Holders registered e-mail address and/or mobile number.</p> <p>Consolidated Account Statement</p> <p>On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted by way of e-mail and/ or SMS within 5 business days from the date of receipt of transaction request will be sent to the Unit Holders registered e-mail address and/ or mobile number. Consolidated account statement for each calendar month shall be issued, on or before tenth day of succeeding month, detailing all the transactions and holding at the end of the month including transaction charges paid to the distributor, across all schemes of all mutual funds, to all the investors in whose folios transaction has taken place during that month. The AMC shall ensure that a consolidated account statement every half yearly (September/ March) is issued, on or before tenth day of succeeding month, detailing holding at the end of the six month, across all schemes of all mutual funds, to all such investors in whose folios no transaction has taken place during that period.</p> <p>Pursuant to SEBI Circular no. CIR /MRD /DP /31/2014 dated November 12, 2014, Depositories shall generate and dispatch a single consolidated account statement for investors (in whose folio the transaction has taken place during the month) having mutual fund investments and holding demat accounts.</p> <p>Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS. In other cases (i.e. PANs with no demat account and only MF units holding), the AMCs/ MF-RTAs shall continue to send the CAS to their unit holders as is being done presently in compliance with the Regulation 36(4) of the SEBI (Mutual Funds) Regulations.</p>

<p>6. Unit holder's information (Contd.)</p>	<p>In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the investor wishes to receive the CAS.</p> <p>Where statements are presently being dispatched by email either by the Mutual Funds or by the Depositories, CAS shall be sent through email. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system.</p> <p>The AMC shall identify common investors across fund houses by their permanent account number for the purposes of sending consolidated account statement. In case of specific request received from the Unit Holders, the AMC/Fund will provide the Account Statement to the Investors within 5 business days from the receipt of such request. In the event the account has more than one registered holder, the first named Unit Holder shall receive the Account Statement. The word transaction will include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan and systematic transfer plan.</p> <p>The AMC will endeavor to send statement of accounts by e-mail where the Investor has provided the e-mail id. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective Depository Participants periodically. Additionally, the AMC may at its discretion send Account Statements individually to the investors.</p> <p>However, in case of Unit Holders holding units in the dematerialized mode, the Fund will not send the account statement to the Unit Holders. The statement provided by the Depository Participant will be equivalent to the account statement.</p> <p>Annual Report: Scheme/Plan-wise Annual Report or an abridged summary thereof shall be mailed to all Unit Holders within four months from the date of closure of the relevant accounting year i.e. 31st March each year.</p> <p>Half yearly disclosures The Mutual Fund shall publish a complete statement of the Scheme portfolio within one month from the close of each half year (i.e. 31st March and 30th September), by way of an advertisement at least, in one National English daily and one regional newspaper in the language of the region where the head office of the Mutual Fund is located.</p> <p>The Mutual Fund may opt to send the portfolio to all Unit holders in lieu of the advertisement (if applicable).</p> <p>The Portfolio Statement will also be displayed on the website of the AMC and AMFI.</p> <p>The Mutual Fund shall within one month from the close of each half year, that is on 31st March and on 30th September, host a soft copy of its unaudited financial results on their website.</p> <p>The mutual fund shall publish an advertisement disclosing the hosting of such financial results on their website, in atleast one English daily newspaper having nationwide circulation and in a newspaper having wide circulation published in the language of the region where the Head Office of the Mutual Fund is situated.</p> <p>The Annual Report, portfolio statement and the un audited financial results will also be displayed on the website of the Mutual Fund (www.axismf.com) and Association of Mutual Funds in India (www.amfiindia.com).</p>

In order to have a concentrated portfolio, the scheme will follow a bottom up stock selection approach.</p> <p>The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors.</p> <p>While 65% - 100% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies), it is expected that under normal market conditions at least 80% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies). 7. Differentiation with existing open ended equity & debt schemes of Axis Mutual Fund (as on October 31, 2015) (contd.)

Axis Short Term Fund		
Asset Allocation		
Type of Instrument		Normal Allocation (% of net assets)
Money market instruments and debt instruments including government securities, corporate debt, securitized debt and other debt instruments with maturity/ average maturity/residual maturity/interest rate resets less than or equal to 375 days or have put options within a period not exceeding 375 days.		30% - 100%
Debt instruments including government securities, corporate debt, securitized debt and other debt instruments with maturity/ average maturity/residual maturity/interest rate resets greater than 375 days		0% - 70%
<p>Primary Investment Objective - Endeavor to generate stable returns with a low risk strategy while maintaining liquidity through a portfolio comprising of debt and money market instruments. However, there can be no assurance that the investment objective of the scheme will be achieved.</p> <p>Investment Strategy - The Fund Manager will try to allocate the assets of the scheme in a diversified portfolio of various high quality Fixed Income Securities to achieve stable returns while having a low risk strategy.</p> <p>The fund manager will seek to look for investment opportunities with the same class of fixed income securities (e.g. government securities) having different maturities (e.g. government securities having a residual maturity of 1 year and 2.5 years) or different classes of Fixed Income Securities with the same maturity profile/residual maturity, (e.g. a government security, an NBFC and a manufacturing corporate security having a residual maturity of 2 years).</p> <p>Differentiation - Endeavor to maintain the modified duration in a range of 3 months to 3 years depending on the interest rate view.</p> <p>AUM (₹ In crores): 2,594.24; No. of Folios : 3794</p>		
Axis Dynamic Bond Fund		
Asset Allocation		
Type of Instrument		Normal Allocation (% of net assets)
Debt instruments including GSecs and corporate debt		0% - 100%
Money market instruments		0% - 100%
<p>Primary Investment Objective - The Scheme will endeavor to generate optimal returns while maintaining liquidity through active management of a portfolio of debt and money market instruments.</p> <p>Investment Strategy - The investment objective of this scheme is to maximize returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up.</p> <p>With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.</p> <p>Differentiation - Active duration management.</p> <p>AUM (₹ In crores) : 321.47 ; No. of Folios : 3501</p>		
Axis Income Fund		
Asset Allocation		
Type of Instrument		Normal Allocation (% of net assets)
Debt and Money Market instruments		100%
<p>Primary Investment Objective - The scheme will endeavor to generate optimal returns in the medium term while maintaining liquidity of the portfolio by investing in debt and money market instruments.</p> <p>Investment Strategy - The scheme proposes to invest in a diversified portfolio of high quality debt and money market securities to generate optimal risk adjusted returns in the medium term. The fund management team is going to take a medium term view on the interest rate structure. While determining the portfolio duration and credit stance, the fund manager will keep in mind the state of the local economy, inflation numbers as well as the global economic scenario.</p> <p>The fund manager will try to allocate assets of the scheme between various fixed income securities taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving optimal risk adjusted returns. While investing the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve).</p> <p>Differentiation - Endeavor to maintain the modified duration in a range of 2-7 years depending on the interest rate view.</p> <p>AUM (₹ In crores) : 250.96; No. of Folios : 3092</p>		
Axis Liquid Fund		
Asset Allocation		
Type of Instrument		Normal Allocation (% of net assets)
Money market instruments (including cash, repo, CPs, CDs, Treasury Bills and Government securities) with maturity/residual maturity up to 91 days		50% - 100%
Debt instruments (including floating rate debt instruments and securitized debt) with maturity/residual maturity/ weighted average maturity up to 91 days		0% - 50%
<p>Explanation:</p> <p>a. In case of securities where the principal is to be repaid in a single payout, the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of the security.</p> <p>b. In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days.</p> <p>c. In case the maturity of the security falls on a Non Business Day, then settlement of securities will take place on the next Business Day.</p> <p>Primary Investment Objective - To provide a high level of liquidity with reasonable returns commensurating with low risk through a portfolio of money market and debt securities.</p> <p>Investment Strategy - Under normal circumstances, the fund shall seek to generate reasonable returns commensurating with low risk by positioning itself at the lowest level of risk-return matrix. The Scheme will invest predominantly in money market securities with some tactical allocation towards other debt securities to enhance the portfolio return. The portfolio will be structured to incorporate asset-liability management based on seasonal/historic trends of liabilities.</p> <p>As yield curve has been observed to be flat (overnight to 3 months) during most of the times, attempt will be made to space out the assets uniformly across the maturity buckets. However any irregularity in the shape of the curve (steep/inverted) will be played out in the portfolio construction after analysing the macro-economic environment.</p> <p>Differentiation - Categorized as a liquid Scheme in which applications for purchases/ switch-ins received before 2.00 p.m, gets historic NAV.</p> <p>The Scheme cannot buy any Debt Securities or Money Market Instruments with maturity greater than 91 days.</p> <p>AUM (₹ In crores) : 8,085.72; No. of Folios : 7653</p>		
Axis Constant Maturity 10 Year Fund		
Asset Allocation		
Type of Instrument		Normal Allocation (% of net assets)
Government Securities, Treasury Bills, Repo & CBLO		100%
<p>Primary Investment Objective - To generate returns similar to that of 10 year government bonds.</p> <p>Investment Strategy - The scheme will aim to generate returns similar to the 10 year government bond through investments predominantly in government securities. The scheme will endeavor to maintain an average maturity of close to 10 years. The normal range of average maturity for the scheme would be between 9 and 11 years. The scheme does not intend to actively manage the duration.</p> <p>By investing predominantly in government securities, the scheme aims to maintain a high degree of credit quality and liquidity.</p> <p>Differentiation - Dedicated to investment in government securities.</p> <p>AUM (₹ In crores) : 149.25; No. of Folios : 475</p>

7. Differentiation with existing open ended equity & debt schemes of Axis Mutual Fund (as on October 31, 2015) (contd.)

Axis Enhanced Arbitrage Fund	
Asset Allocation	
Type of Instrument	Normal Allocation (% of net assets)
Equities, equity related instruments (unhedged)*	0% - 10%
Equities, equity related instruments and derivatives including index futures, stock futures, index options, & stock options, etc. as part of hedged / arbitrage exposure*	65% - 90%
Debt and Money market instruments** (including investments in securitized debt)	10% - 35%
** including securitized debt up to 35%. The Scheme will not invest in foreign securitized debt.	
*Equity allocation is measured as the Gross exposure to equities, equity related instruments and derivatives. The scheme will enter into derivatives transactions for hedging. The derivative positions will be hedged against corresponding positions in either equity or derivative markets depending on the strategies involved and execution costs. On the total portfolio level the scheme does not intend to take a net short exposure to equity markets. Unhedged positions in the portfolio (investments in equity shares without corresponding exposure to equity derivative) shall not exceed 10% of the net assets.	
Primary Investment Objective - To generate income through low volatility absolute return strategies that take advantage of opportunities in the cash and the derivative segments of the equity markets including the arbitrage opportunities available within the derivative segment, by using other derivative based strategies and by investing the balance in debt and money market instruments. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.	
Investment Strategy - The scheme will seek to achieve its investment objective primarily by employing various strategies which seek to exploit absolute returns opportunities in equity and derivative markets. In case such opportunities are not available, the scheme will invest the corpus in debt and money market instruments.	
The equity and derivative markets have experienced enormous growth in India in the last few years. The market provides the investor the ability to derive returns from the various strategies enumerated below. The market is not always efficient to the extent of mispricing in the derivative market and the underlying cash market. These techniques differ in that each method attempts to exploit a different form of imperfection in the underlying equity, debt and derivatives market and thus expose the investor to different forms of risk.	
Differentiation - The scheme invests predominantly in debt & money market instruments issued by banks.

Axis Income Saver	
Asset Allocation	
Type of Instrument	Normal Allocation (% of net assets)
Debt & Money Market Instruments	65- 99%
Equity and Equity related Instruments	01- 35%
Primary investment objective - To generate regular income through investments in debt & money market instruments, along with capital appreciation through limited exposure to equity and equity related instruments. It also aims to manage risk through active asset allocation	
Investment strategy - The Scheme has dual objectives of generating income and capital gains while attempting to manage the risk from the market. In order to achieve the twin objectives, the Scheme intends to follow a top-down and bottom-up investment strategy. The top-down process would lead to the asset-allocation between equities and fixed income and the bottom-up process would lead to construction of the portfolio using specific securities. The Scheme would invest both in equities and fixed income instruments. Allocation between the two asset classes will be done using a quantitative asset allocation methodology. This methodology will be the primary tool to manage the overall risk of the portfolio in such a way as to achieve the objective of managing risk. The quantitative tool has been simulated with a target of limiting the downside to 5% in a calendar year. Within equities and fixed income, the portfolio would be actively managed to optimize returns within the respective asset class.	
Differentiation - Equity Exposure up to 35% of the net assets

Asset Allocation	
Type of Instrument	Normal Allocation (% of net assets)
Debt instruments & Money Market Instruments*	100%
*includes securitized debt up to 50% of the net assets of the Scheme.	
Primary investment objective - To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum.	
Investment strategy - The scheme to generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. The fund manager will endeavour, through a process of robust credit risk assessment & research, to identify optimum credit opportunities in the market and invest in such instruments offering higher yields at acceptable levels of risk. The fund manager will try to allocate assets of the scheme between various fixed income instruments taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving stable risk adjusted returns. While investing the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve). After doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations the portfolio duration and credit exposures will be decided.	
Differentiation - The scheme invests in debt & money market instruments across the credit spectrum.

- The AMC intends using electronic payment services (NEFT, RTGS, ECS (Credit), Direct Credit, etc.) to the extent possible for dividends / redemptions for faster realization of proceeds to investors. In case an investor wishes to receive payments vide cheques / demand drafts to be sent using a postal / courier service, please provide appropriate written instructions to the AMC / Registrar for the same.
- Please enclose a cancelled cheque leaf (or copy thereof) in case your investment instrument (pay-in) is not from the same bank account as mentioned under bank account details.
- Any communication, dispatch of redemption / dividend proceeds / account statements etc. would be made by the Registrar / AMC as per reasonable standards of servicing.
- The Debit Mandate is an additional facility available to Axis Bank account holders only.

6. BANK DETAILS

It is mandatory for investors to mention bank account details on the form as per directives issued by SEBI. Applications without this information are liable to be rejected. The Mutual Fund / AMC reserve the right to hold redemption proceeds in case requisite bank details are not submitted.

Option to register multiple bank accounts

The AMC / Mutual Fund has also provided a facility to investors to register multiple bank accounts. By registering multiple bank accounts, investors can use any of their registered bank accounts to receive redemption / dividend proceeds. Any request for a change in bank mandate requires 10 days for validation and verification. Further, these account details will be used by the AMC / Mutual Fund / R&T for verification of instruments (like cheques/DDs/POs) received at the time of subscription / purchase applications to ensure that subscription payments are received only from one of the registered bank accounts. Payments from non-registered bank accounts (called third party payments) will not be accepted (except where permitted as per SEBI regulations). Investors are requested to avail of this facility by filling in the application form for registration of multiple bank accounts available at any of our ISCs / OPAs or on our website www.axismf.com.

Cheques submitted at the time of purchase should be from the beneficiary investors account or from an account mentioned in your Multiple Bank Accounts Registration form (except for minors for amounts less than ₹ 50,000 and Corporates / non-individuals).

Demand drafts submitted at the time of subscription should be accompanied by a banker's certificate clearly stating the investor's name and PAN as well as mentioning that the demand draft has been issued by debiting the investor's own bank account. Pre-funded instruments issued by the bank against cash shall not be accepted for investments of ₹ 50,000 or more. This pre-funded instrument should also be accompanied by a certificate from the banker giving the investor's name, address and PAN.

Payments made through RTGS/NEFT/NECS should be accompanied by a banker's certificate stating that the RTGS/NEFT/NECS payment has been made by debiting the investor's own bank account along with mention of the investor's name and PAN.

7. THIRD PARTY PAYMENTS

When payment is made through instruments issued from a bank account other than that of the investor, the same is referred to as a Third Party payment. Where an investor has opted to register multiple bank accounts (using the 'Multiple Bank Accounts Registration Form'), and purchase payment is made from an account different from what is registered, any one of the following documents need to be provided as proof along with the payment instrument.

- Banker's certificate stating that the investment is from the investor's own bank account along with mention of his name and PAN
- Bank account passbook or statement mentioning the investor's name / PAN

Restriction on acceptance of Third Party payments for subscriptions, and exceptions thereto

- In case of payments from a joint bank account, one of the joint holders of the bank account must be the first account holder under the investment application.
- The Asset Management Company shall not accept subscriptions with Third Party payments except in the following situations:
 - Where payment is made by parents/grand parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000 (each regular purchase or per SIP installment). However this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio.
 - Where payment is made by an employer on behalf of an employee under Systematic Investment Plans through payroll deductions.
 - Custodian on behalf of an FII or a client.

Documents to be submitted for exceptional cases

- KYC is mandatory for all investors (guardian in case of minor) and the person making the payment i.e. the third party. Investors and the person making the payment should attach their valid KYC acknowledgement letter to the application form.
- Submission of a separate, complete and valid 'Third Party Payment Declaration Form' from the investors (guardian in case of minor) and the person making the payment i.e. third party. The said Declaration Form shall, inter-alia, contain the details of the bank account from which

the payment is made and the relationship with the investor(s). Please contact the nearest OPA/ISC of Axis Mutual Fund or visit our website www.axismf.com for the declaration form.

8. KYC

All Applicants (including POAs and Guardians) are required to be KYC compliant irrespective of the amount of investment. In case you are not KYC certified, please fill in the KYC form (individual or Non-Individual). A KYC acknowledgement letter should be submitted along with application for opening a folio or making an investment. Each holder in the folio must be KYC compliant.

Investors may kindly note that new SEBI Circular issued regarding uniformity in the KYC process was effective from January 1, 2012.

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries, new Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are available on our website www.axismf.com.
- The Mutual Fund shall perform the initial KYC of its new investors and shall also accept the details change form for investors who have done their KYC prior to 31st Dec 11.
- It is mandatory to carry out In-Person Verification (IPV) for processing the KYC of its new / existing investors from January 1, 2012.
- Once the KYC and IPV-In Person Verification has been done with any SEBI registered intermediary, the investor need not undergo the same process again with any another intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC/additional KYC of the investor.
- Existing KYC compliant investors of the Mutual Fund can continue to invest as per the current practice.
- Non-individual investors will have to do a fresh KYC due to significant changes in KYC requirements.
- In accordance with SEBI Circular No. CIR/MIRSD/13/2013 dated December 26, 2013, the additional details viz. Occupation details, Gross Annual Income/networth and Politically Exposed Person (PEP)* status mentioned under section 2 & 3 which was forming part of uniform KYC form will now be captured in the application form of the Fund. Also, the detail of nature of services viz. Foreign Exchange/Gaming/Money Lending, etc., (applicable for first/sole applicant) is required to be provided as part of Client Due Diligence (CDD) Process of the Fund.

The said details are mandatory for both Individual and Non Individual applicants.

*PEP are defined as individuals who are or have been entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior Government/judicial/ military officers, senior executives of state owned corporations, important political party officials, etc.

Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.

In accordance with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015, investors may note the following:

With effect from November 1, 2015:

- It shall be mandatory for all new investors to provide additional KYC information such as Income details, Occupation, association with politically exposed person, net worth etc. as mentioned in the application form. Subscription requests, without providing these details, shall be liable to be rejected.
- No subscriptions (whether fresh or additional) and switches pertaining to 'KYC-on-hold' cases shall be accepted, unless the investor / unitholder also submits relevant KYC missing / updated information, which is appropriately updated on the KRA - KYC system.

With effect from January 1, 2016:

- It shall be mandatory for all existing investors/unitholders to provide additional KYC information such as Income details, occupation, association with politically exposed person, net worth etc. as mentioned in the application form.
- It shall be mandatory for existing customers to complete the IPV and provide the missing KYC information failing which their applications / transaction requests for additional subscription (including switches) shall be liable to be rejected.

8. Ultimate Beneficial Owner(s)

Pursuant to SEBI Master Circular No. CIR/ISD/AML/3/2010 dated December 31, 2010 on Anti Money Laundering Standards and Guidelines on identification of Beneficial Ownership issued by SEBI vide its Circular No. CIR/MIRSD/2/2013 dated January 24, 2013, Investors (other than Individuals) are required to provide details of 'Ultimate Beneficial Owner(s) (UBO(s))' in the separate format enclosed with this form & also available at www.axismf.com. In case the investor or owner of the controlling interest is a company listed on a stock exchange or is a majority owned subsidiary of such a company, the details of shareholders or beneficial owners are not required to be provided.

Non-individual applicants/investors are mandated to provide the details on 'Ultimate Beneficial Owner(s) (UBO(s))' by filling up the declaration form for 'Ultimate Beneficial Ownership'. Please contact the nearest Investor Service Centre (ISC) of Axis Mutual Fund or visit our website www.axismf.com. SEBI has prescribed its guidelines for identification of Beneficial Ownership to be followed by the intermediaries for determination of beneficial owners. A 'Beneficial owner' is defined as a natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, and includes a person who exercise ultimate effective control over a legal person or arrangement. In this regard, all categories of investors (except individuals, companies listed on a stock exchange or majority-owned subsidiary of such companies) are required to provide details about beneficial ownership for all investments. The Fund reserves the right to reject applications/restrict further investments or seek additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with the Fund/Registrar.

In accordance with SEBI Circular No. CIR/MIRSD/2/2013 dated January 24, 2013, other applicable regulations and guidelines and AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015, Investors may note the following:

- With effect from November 1, 2015, it shall be mandatory for all new investors to provide beneficial ownership details as a part of account opening documentation failing which their applications / subscription requests shall be liable to be rejected.
- With effect from January 1, 2016 it shall be mandatory for all existing investors/unitholders to provide beneficial ownership details, failing which their applications / requests for additional subscription (including switches) shall be liable to be rejected.

- e. In case mobile no. & email ID is not provided on the application form then it will be capture as per KYC record.
- 16. NOMINATION**
- a. Nomination is mandatory for all the folios/accounts, where the mode of holding is single or the folio/account is opened by an individual without any joint holding. New subscriptions received from individuals without nomination will be rejected.
- b. The nomination can be made only by individuals holding units on their own behalf singly or jointly. Non-Individuals including Society, Trust, Body Corporate, Partnership Firm, Karta of Hindu Undivided Family, holder of Power of Attorney cannot nominate. If the units are held jointly, all joint holders must sign against the nomination.
- c. Nomination is not allowed for folios/accounts opened in the name of minors.
- d. A minor can be nominated against a folio/account. In such a case, the name and address of the Guardian of the minor nominee must be provided. If no Guardian name is provided, the nomination of the minor will be invalid. The Guardian of the minor nominee should be a person other than the holder of that folio/account. Nomination can also be in favour of the Central Govt, State Govt, a local authority, any person designated by virtue of his office or a religious charitable trust.
- e. The Nominee cannot be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of HUF or a Power of Attorney holder. A non-resident Indian can be a Nominee subject to the exchange controls in force, from time to time.
- f. Nomination stands rescinded upon transfer of units or cancellation of nomination.
- g. The nomination facility extended under the Scheme is subject to existing laws. The AMC shall, subject to production of such evidence which in their opinion is sufficient, proceed to effect the payment / transfer to the Nominee(s) in the event of demise of the unit holder. Transfer of units / payment to the nominee(s) of the sums shall discharge Axis Mutual Fund / Axis AMC of all liability towards the estate of the deceased unit holder and his / her / their successors / legal heirs.
- h. Cancellation of nomination can only be made only by those individuals who hold units on their own behalf singly or jointly and who made the original nomination. (Please note that if one of the Joint Holders die, the other surviving holders cannot cancel or change the nomination.)
- i. Nomination shall be registered only if the form is filled in completely.
- j. Nomination will be updated at folio/account level and not at scheme level.
- k. Nomination can be made for maximum of 3 nominees. In case of multiple nominees, the percentage of allocation / share in favour of each of the nominees should be indicated against their name and such allocation / share should be in whole numbers without any decimals making a total of 100 percent. In the event of unit holders not indicating the percentage of allocation / share for each of the nominees, the Mutual Fund / the AMC, by invoking default option shall settle the claim equally amongst all the nominees.
- l. The investor(s) who nominate is / are deemed to have read and understood the provisions of Regulation 29 A of SEBI (Mutual Funds) Regulations, 1996, read with SEBI circular dated Feb. 16, 2004 and / or any amendments thereto or any rules / regulations framed in pursuance thereof governing the nomination facility and agree/s to be bound by the same.
- m. Fresh nominee registrations will override older nominations under the folio.
- n. In case an investor does not wish to nominate for a specific folio / account, he/she should strike off the nomination fields and mention "Nomination not required".
- o. Even those investors who do not wish to nominate must sign separately confirming their non-intention to nominate.
- 17. DEMAT ACCOUNT DETAILS**
If you wish to invest in the scheme through Demat you need to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and specify the same in this Application Form. You must ensure that the sequence of names with other details like address, PAN, etc mentioned under Demat details should match with DP records. Only those applications where the details are matched with the depository data, will be treated as valid application. If the details mentioned in the application are incomplete / incorrect, or does not match with the depository data, the applicant shall be treated as invalid and shall be liable to be rejected and would be allotted in Physical form. Demat option will be applicable for the applications along with SIP option.
Please attach Client Master List along with application form.
- 18. TRANSACTION CHARGE**
As per SEBI circular dated August 22, 2011, Transaction Charge per subscription of ₹ 10,000/- and above shall be charged from the investors and shall be payable to the distributors/brokers (who have not opted out of charging the transaction charge) in respect of applications routed through distributor/broker relating to Purchases / subscription / new inflows only (lumpsum and SIP), subject to the following:
- For Existing / New investors: ₹100 / ₹ 150 as applicable per subscription of ₹ 10,000/- and above.
 - Transaction charge for SIP shall be applicable only if the total commitment through SIP amounts to ₹ 10,000/- and above. In such cases the transaction charge would be recovered in maximum 4 successful installments.
 - There shall be no transaction charge on subscription below ₹ 10,000/-.
 - There shall be no transaction charges on direct investments.
 - There shall be no transaction charges for transaction other than purchases/subscriptions relating to new inflows such as Switches, etc.
 - Transactions carried out through the Stock Exchange platforms for mutual funds shall not be subject to transaction charges.
- The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum requirement due to deduction of transaction charges from the subscription amount.
- However, the option to charge "transaction charges" is at the discretion of the distributors. Investors may note that distributors can opt to receive transaction charges based on type of the Scheme. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.
- 19. FOREIGN ACCOUNT TAX COMPLIANCE (FATCA)**
Details under FATCA/Foreign Tax Laws: Tax Regulations require us to collect information about each investor's tax residency. In certain circumstances (including if we do not receive a valid self-certification from you) we may be obliged to share information on your account with relevant tax authorities. If you have any questions about your tax residency, please contact your tax advisor. Should there be any change in information provided, please ensure you advise us promptly, i.e., within 30 days. If you are a US citizen or resident or grantor holder, please include United States in the foreign country information field along with your US Tax Identification Number. Foreign Account Tax Compliance provisions (commonly known as FATCA) are contained in the US Hire Act 2010. If you are classified as a passive Non-Financial Foreign Entity (NFFE) for FATCA purposes, please include in the section relating to Ultimate beneficial Owner (UBO), details of any specified US persons having controlling interest in the foreign country information field along with your US Tax Identification Number for FATCA purposes. Foreign Account Tax Compliance provisions (commonly known as FATCA) are contained in the US Hire Act 2010. The Fund reserves the right to reject applications/restrict further investments or seek additional information from investors who have not provided the requisite information.
- SEBI issued its circular no. CIR/MIRSD/2/2015 dated August 26, 2015 inter alia advising intermediaries to take necessary steps to ensure compliance with the requirements specified in the rules and guidelines specified by the Government of India. AMFI also issued its best practices guidelines circular no. 63/2015-16 dated September 18, 2015 on this matter. The AMC and the Mutual Fund are required to adhere to various requirements inter alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities, as specified under the applicable laws. Accordingly, the following aspects need to be adhered to:
- With effect from November 1, 2015 all investors will have to mandatorily provide the information and declarations pertaining to FATCA/CRS for all new accounts opened, failing which the application / transaction request shall be liable to be rejected.
 - For all new accounts opened by investors, from September 1, 2015 till October 31, 2015, MFs need to obtain relevant FATCA / CRS declarations. These details / certification need to be obtained by December 31, 2015, particularly in cases where, after India search, a positive match is found with any US indicia. If self certification is not provided by an investor or the reasonableness of self-certification cannot be confirmed, the account is treated as reportable.
 - For accounts opened between July 1, 2014 and August 31, 2015 and certain pre - existing accounts opened till June 30, 2014, the AMC is reaching out to such investors to seek the requisite information/declaration which has to be submitted by the investors before specified timelines. In case the information/declaration is not received from the investor on or before the specified timelines, the account shall be treated as reportable.
- Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement CRS and FATCA under the relevant international treaties.
- 20. A non-profit organization means any entity or organization that is registered as a Trust or a society under the Societies Registration Act, 1860 or any similar State legislation or a company registered under section 25 of the companies act, 1956 or under Section 8 of the Companies Act, 2013. NPOs are requested to submit a copy of certificate of registration under applicable laws (example Bombay Public Trust Act) and/ or certificate from Charity Commissioner (as applicable) and/ or copy of appropriate registration certificate under Income Tax Act.**
